SpeechX

An AI Powered Speech Simulator

POWERED BY
Carnegie Speech

An auto evaluated spoken English evaluator. The tool assesses candidates on 4 major parameters:

Pronunciation

It reflects the ability of candidates to produce consonants, vowels,and adding/ deleting sounds. It measures how accurately one is able to produce sounds at the phoneme levels within a word.

Fluency

It assesses candidates on how fluent they are while speaking in terms of the rate of speech, pauses, and addition of fillers, through reading and repeating sentences and speaking on the spot on a topic.

Grammar

It reflects the ability of candidates to use correct grammar while speaking. Candidates are evaluated on 5 major topics - subject-verb agreement, tenses, word order, prepositions and articles.

Listening Comprehension

It assess candidates on their ability to listen attentively to a conversation or a piece of information in an audio format and recall important pointers and make inferences out of the conversations.

CEFR Rating

The Common European Framework of Reference for Languages is an international standard for assessing a person's proficiency in English Verbal Communication Level. It ranges from A1 to C2, with A1 being the lowest and C2 being the highest level.

Bad

Audio Quality Description

⚠ The audio quality was poor and the audios were not clear. Some issues were detected in the audios. The scores of the candidates might have been impacted by the audio quality and hence the report has to be interpreted with caution.

A2

CEFR Description

CEFR Level: A2

Is able to deal with simple, straightforward information and express oneself in familiar contexts. Is able to understand expressions and phrases used frequently, and use those while interacting. Is able to interact clearly on familiar and routine matters, through commonly used words.
